Brain Injury Alliance
CONNECTICUT

Call for PROPOSALS

The Brain Injury Alliance of Connecticut (BIAC) is seeking workshop proposals through October 15, 2025 for its Annual Professional Conference that will take place in March, 2026 (exact date TBD).

Overview

We are looking forward to another great in-person conference with outstanding opportunities for professional and educational development around all themes brain injury!

Workshops will be 90 minutes in length and can be research findings, clinical applications, or relevant case studies.

The audience consists of professionals working in the field of brain injury, including social workers/care managers, medical practitioners, psychologists, and direct care staff. Preference is given to evidence-based presentations that are interactive, including strategies to engage the audience, and leave participants with new skills and learning that they can immediately put to use.

Possible topics:

- COVID - long haulers & neurological implications
- Concussions
- Research updates
- Behavioral issues/challenges
- Return to work, driving, assistive technology
- Acute rehab
- ABI and mental illness
- Cultural humility
- Brain injury within the Veteran population
- Opioid overdose/toxic exposure
- Integrative approaches/modalities
- Role of AI in brain injury diagnosis and intervention
- Other topics relevant and related to brain injury
- Sexuality/intimacy/issues
